

Why Rapidise ?

Reliable by Design

✖ 27+ years of legacy in EMS & product design

- Proven track record in high-quality electronics manufacturing
- FCC, CE, RoHS compliant
- Every unit passes rigorous **multi-stage QC & PDI validation**

Scalable & Efficient

🚀 End-to-end ODM & supply chain management

- Shared enclosure platform across N2–N14 for rapid scalability
- Seamless integration from prototyping to mass production
- Optimized manufacturing for cost and speed without compromise

Customizable & Brand-Ready

🎨 White-labelling & tailored design options

- Enclosure-level customization and branding flexibility
- Configurable firmware and sensor combinations
- Designed to adapt to diverse IoT applications and OEM needs

From concept to certified product – Rapidise delivers precision IoT hardware at scale.
