

# LTE Bodycam

Rugged LTE body-worn camera with IP68 rating, 4000 mAh battery, and optional USB mini-cam. Designed for field surveillance, security, and law enforcement applications requiring reliable, mobile edge intelligence.

**(1) 85mm x 57mm x 30mm**

**(2) IP68 Rated Product**

**(3) Optional USB Mini - Cam**

**(4) 4000 mAh Battery**

## Use Cases

Low Light Camera

Video Collaboration

Cloud Gaming

Video Trans-coding

## Industries We Serve

Automotive

Security & Surveillance

Biotech

Semiconductor

Health Care

Industry 4.0

# Technical Specification

<b>Platform</b>	Qualcomm™ QCS5430
<b>CPU</b>	Qualcomm® Kryo™ 670 CPU
<b>AI Engine</b>	Number of Cores: 6, GPU: Qualcomm® Adreno™ 642L, Hexagon Processor: Qualcomm® Hexagon™ 770, Fused AI Accelerator Architecture.
<b>Memory/Storage</b>	4GB LPDDR5 pop package, 16GB Flash Memory
<b>Camera</b>	2MP Main Camera + 2MP Optional USB Mini Camera
<b>Display</b>	2" MIPI-DSI Display
<b>Functionalities</b>	Recording, Streaming of Video & Audio, GPS, 2way audio
<b>Communication Protocols</b>	LTE CAT 6 (M.2 based) interfaced via USB3.0, and BLE 5.0, GPS Enabled for accurate positioning
<b>Features</b>	On-Device recording and wireless streaming of High-Quality Audio, Video and Location Services
<b>Supply voltage</b>	SOM Input Voltage: 3.4V ~ 4.5V, Qualcomm® Quick Charge™ 5 technology
<b>IP Rating</b>	IP67 Rating
<b>Battery Life</b>	4,000 mAH long battery life
<b>Operating System</b>	Android
<b>Mechanical Specification</b>	SOM: 85mm x 57mm x 30mm (Excluding Antenna)
